Subject: Revision of EASA Part-145 approval in accordance with the provisions of the Agreement between the United States of America and the European Community on Cooperation in the Regulation of Civil Aviation Safety.

Enclosure: EASA Part-145 approval certificate

Dear Sir or Madam,

Following a positive recommendation from the FAA the European Union Aviation Safety Agency hereby accepts the changes to your EASA Part-145 approval:

EASA.145.8025

Subject to continued compliance with the FAR 145 and the EASA special conditions as detailed in the Agreement between the United States of America and the European Community on Cooperation in the Regulation of Civil Aviation Safety and associated Maintenance Annex Guidance (MAG), your renewal date will be:

14 July 2026

To ensure that the FAA and EASA have sufficient time to process your renewal please provide your renewal paperwork package at least 90 days before the date above. Do refer to the latest renewal procedures and documents available from <https://www.easa.europa.eu/> to avoid delays.

This certificate supersedes the previous revision of the approval certificate. Please destroy the superseded certificate. There is no need for you to return it to the Agency.

Should you have further queries, please do not hesitate to contact us at the e-mail indicated below. Please assist us by always quoting your EASA approval number in any correspondence with the Agency.

Yours faithfully,

Maintenance Organisation Oversight Section

U.S. APPROVAL CERTIFICATE

EASA.145.8025

Taking into account the provisions of Article 68 of Regulation (EU) 2018/1139 of the European Parliament and of the Council and the bilateral agreement currently in force between the European Community and the Government of the United States of America, the European Union Aviation Safety Agency (EASA) hereby certifies:

ADVANCE FINISH CORP.

FAA Number: FSMR982D

**285 NORTH DRIVE, SUITE D & E
32934 MELBOURNE FLORIDA
UNITED STATES**

as a Part-145 maintenance organization approved to maintain the products listed in the FAA Air Agency Certificate and associated Operations Specifications and issue related certificates of release to service using the above reference, subject to the following conditions:

1. The scope of the approval is limited to that specified on the 14 CFR part 145 repair station Air Agency Certificate, and the associated Operations Specifications for work carried out in the United States (unless otherwise agreed in a particular case by EASA).
2. The approval scope shall not exceed the permitted EASA Part-145 ratings as detailed in Regulation EC (No) 1321/2014.
3. This approval requires continued compliance with 14 CFR part 145 and the differences as specified in the Maintenance Annex Guidance (MAG), including the use of the FAA Form 8130-3 for release/return to service of components up to and including power plants.
4. Certificates of return to service must quote the EASA Part-145 approval reference number quoted above and the 14 CFR part 145 Air Agency Certificate number.
5. Subject to compliance with the foregoing conditions, this approval shall remain valid until:

14 July 2026

unless the approval is surrendered, superseded, suspended or revoked.

Date of issue: **19 December 2024**

Our Fort Lauderdale Facility

Our state-of-the-art facility in Fort Lauderdale stands as a testament to our commitment to excellence, following a significant investment of **\$5.5 million on a 16,000 SQFT**. The facility boasts a **Luxurious Showroom** where customers can explore and select from a comprehensive range of materials available in the aviation industry. We also offer a modern, comfortable customer seating area, a dedicated **conference room**, and **multiple offices**, including a **procurement office** and **parts room**.

The expansive seat shop features **six sewing machines**, a **CNC quilting machine**, and a **foam area**, allowing us to bring any custom seat design to life. Our spacious workspace includes dedicated areas for **soft goods covering, paneling, assembly and disassembly**, and secure **storage for customer property**. We also have a **fully equipped wood shop, paint booth, drying room**, and a **mixing room** for all finishing processes. Additionally, our large **shipping and receiving** area ensures seamless handling of all materials. This facility reflects our dedication to providing top-tier service and quality in every aspect of aircraft interior design and customization.

Our entrance lobby is designed to make a strong first impression, offering a welcoming and professional atmosphere that reflects our commitment to quality and excellence.

The facility boasts a high-end showroom where customers can explore and select from a comprehensive range of materials available in the aviation industry

Our customer seating area is designed for comfort, providing a relaxing space where clients can feel at ease while discussing their projects with us. **Additionally, AFC is in the process of adding configurator software to professionally support customers during material selection, enhancing the customization experience**

A modern meeting room with a large white conference table, brown leather chairs, a whiteboard with handwritten notes, and a glass partition. The whiteboard contains the following text: "AFC Mission", "Core values: Quality, Integrity, Customer Focus", "Goals for 2011: Deliver on time, Manage Risk, Superior Customer Service, Growing Services". Below this, it says: "The mission is further by support of excellence in quality service by people at all levels for whom we are committed to excellence." There are two red fire alarm pull stations on the wall.

The CEO office is designed to offer an exceptional customer experience, providing a private and personalized setting where clients can engage directly, ensuring their needs and expectations are met with the highest level of attention and care.
